

Coaching for those in ministry life... your **“THINKING PARTNER”**

Our approach - *create an environment where ministry leaders can close the gap between where they are and where they want to go!* Coaching can focus on general life and leadership concerns, or on a specific challenge or issue. It is *a partnering environment*; meant to facilitate wisdom and become a catalyst for growth. It is *a confidential and supportive experience*. It is this one-on-one relationship that allows the focus to be totally on you, and not a pre-packaged set of answers. We are your *“thinking partners”* in this process.

What does coaching look like?

A Personal Relationship with A Coach – Before you begin, you will be connected with several of our coaches in an initial phone call (at no cost) to determine the coach that best fits your need.

The coaching sessions are conducted over the phone, or by video conference, and are typically one hour in length.

The coaching relationship will be designed together. Coaching is not advice, therapy, consulting, or counseling. The role of your coach will be to ask meaningful questions and come alongside as your thought partner. We will work together through challenges and issues, and design actions to move you toward your desired goals. There may be times when mentoring is blended with the coaching.

The Purpose of our interaction is to hold your focus on your desired outcome, so you can stay clear, take action, and experience change in the process.

A Plan Tailored to You – You can select from four different packages, depending on the number of sessions you feel will meet your need.

PRO D Mini – combining the PRO D Assessment and consult with three ½ hr. coaching sessions to do some basic follow up on insights gained from the assessment. (\$400.00)

PRO D Plus – combines the PRO D Assessment and consult with six full 60 minute coaching sessions. This allows for further exploration of insights gained from the assessment, as well as related topics or issues. (\$850.00)

Clergy Coaching Standard – six full 60-minute coaching sessions dedicated to a current ministry or life challenge. (\$600.00)

Clergy Coaching Modified – allows you the option of selecting the number of full coaching sessions at a frequency and cost that is agreed upon in advance.

The cost per coaching session is \$100.00. The cost for the PRO D Assessment is \$250.00. Because we believe in the value of the coaching experience for all who want it, we want you to talk to us about any extenuating circumstances that may affect how and when payments are made.

Every pastor needs a coach!
